5. I had lunch with [REDACTED] who is scheduled to go to [REDACTED]. I agreed to see what we could do about some sort of education allowance for him. He has five children, the eldest being about ten years of age, and, as I understand it, there are no school facilities [REDACTED]. The Station recommended that he hire an English tutor and I told him that I did not know whether we could do this or not but that I would at least explore the matter. He was also in search of advice on how to deal with the Federal Aviation Agency on a real estate problem. His house is being condemned in order to make way for the Dulles International Airport. I told him that I would arrange for him to talk with someone in the General Counsel's office in connection with this problem.

6. Gordon Stewart telephoned to say that he had had a chance to review Jim [REDACTED] financial situation and was prepared to recommend that we give him a Certificate of Merit with distinction and an accompanying cash award of a substantial amount, perhaps as much as \$3,000. I told him that I agreed with this in principle and asked him to explore with Larry Houston the possibility of the Director taking this action without reference to the Honor Awards Board.
